3 to 1 Against Cox

Cox money is becoming more plentiful in Wall Street betting ircles, but the odds demanded on the Democratic nominee are 3 to 1, so that little is being put up.

Yesterday \$1,000 was bet at even money that Cox will carry Ohio. A wager of \$200 against \$280 was made that Harding will receive 200,000 more votes in New York State than his Democratic opponent.

While betting on the Presidenial election in the financial district has been light so far in comparison with other years, it is estimated that between \$300,000 and \$400,000 has been put up to date. One man, a Harding supporter, has wagered \$200,000.
